

THE FREQUENCY

Quarterly Newsletter

WELCOME BACK!

Thank you for joining us for the second edition of The Frequency, your quarterly update on the latest developments, events, and breakthroughs from SPX Communication Technologies. We're thrilled to keep you informed with key updates and milestones as we continue to drive progress in mission-critical communication solutions on a global scale.

Company News

Republic of Botswana Selects SPX Communication Technologies for Automated Spectrum Monitoring System

We're proud to share that TCI has been selected by the Botswana Communications Regulatory Authority (BOCRA) to supply, install, and commission a turnkey Automated Spectrum Monitoring System. This project includes a full suite of fixed, mobile, transportable, and portable monitoring stations, all featuring TCI's Model 759 and Scorpio software. This integrated solution will support BOCRA's current and future spectrum management needs with advanced direction-finding, TDOA, and Automatic Violation Detection capabilities.

SPX Communication Technologies Partners with NPAS for Advanced Airborne Communications

We're delighted to share that SPX Communication Technologies has been selected to deliver advanced data link capabilities for the National Police Air Service (NPAS) and its new fleet of Airbus helicopters. This strategic partnership marks a significant step forward in supporting NPAS's mission-critical operations with secure and reliable airborne communication technology. Thanks and appreciation go to Colin Waite for his hard work and dedication in this milestone collaboration.

TCI Supports Romania's New Spectrum & GPS Signal Monitoring Lab

We're excited to highlight the opening of a state-of-the-art Spectrum and GPS Signal Monitoring Laboratory at the Training School for Communications, IT, and Cyber Defense in Sibiu, Romania. Developed in collaboration with MAPN, StarC4Sys, and TCI International, Inc., this fully operational lab is designed to train future experts in spectrum monitoring, COMINT, and EW, thus advancing Romania's national and NATO-aligned defense capabilities.

Industry Events and Engagement

April:

Warrior West, San Diego, CA – we showcased our battlespace solutions to military, government and defence personnel from around the world.

San Jose State University Career Fair – bringing our technology to the universities!
LAAD, Rio de Janeiro, Brazil

Industry Events and Engagement (continued)

May:

AOC Europe – Rome, Italy – we were proud to showcase our latest advancements in COMINT, Counter-UAS, and Tactical Data Links

ITU Djibouti – Radiocommunications Seminar - Concepts relating to international Spectrum Management and the procedures for recording of frequency assignments took place and we presented on Modern Spectrum Management and Monitoring. The seminar also provided hands-on workshops.

PAvCon – Provence-Alpes-Côte d'Azur, France – our Data Links Business Development team connected with Police forces and security professionals from across Europe and beyond.

Annual International Regulatory Conference (IRC) 2025 – TCI's Aleksandar Smokvarski, Director of Business Development for Europe, presented key concepts of next generation spectrum management

CANSEC, Ottawa, Canada

June:

Indo Defence, Jakarta, Indonesia – we had some interesting conversations with military and government professionals from across the region, all eager to learn more about our Intelligent Tactical Data Links, BLACKTALON Ecosystem Counter-UAS solutions and our COMINT capabilities.

SEESOF, Targu Mures, Romania

ADS Trade Mission, Bucharest, Romania

Upcoming Events

DSEI 2025 | Excel, London, UK | 9–12 September

Mark your calendar now - join the team as we showcase new technology and launch 2 new COMINT products. Also come and speak to our Data Link team as they can share exciting updates regarding technology innovations.
