

“The Frequency”

Quarterly Newsletter / Q1 2026

From TCI and ECS – Part of SPX Communication Technologies

WELCOME TO 2026!

Welcome to the first 2026 issue of *The Frequency*, our Q1 Newsletter - bringing you updates on the latest insights, innovations, and highlights from TCI and ECS (part of SPX Communication Technologies). We're excited to share the progress, achievements, and initiatives shaping the future of our mission-critical communication technology around the world.

Spotlight on Company News

BlackTalon Ecosystem Demo to Luke Pollard, MP – London

Graeme Forsyth and Paul Faizey attended this UKG hosted event in London to demonstrate to Luke Pollard, MP, Minister of State for Defence Readiness and Industry – the BlackTalon Ecosystem, highlighting its flexibility and modular design in addressing today's rapidly evolving threats. We were one of 13 industry partners invited to demonstrate - held at Wellington Barracks, just moments from Buckingham Palace, the event brought together Ambassadors and Defence Attachés for valuable discussion and engagement.

ASMS Spectrum Management User Group Training – Eswatini

A successful launch of TCI's Spectrum Management (ASMS) User Group training in Eswatini. Continued collaboration, sharing, and learning during this 5-day event diving deeper into spectrum management.

We commenced this fantastic event with a memorable evening at the beautiful Mandela Center, where everyone gathered to unwind and get to know each other in a relaxed setting.

Julian Floyd – Retirement

Julian Floyd, our UK Secure Systems and IT Manager, recently decided to take early retirement.

After 37 years with ECS and as the 2nd employee of the company, Julian made a real impact and played some significant roles within the business, with his final role being head of the IT Department.

We celebrated Julian's departure with a presentation and a meal to thank him for his valuable contributions and to wish him well for his retirement.

New Product Development:

Data Links - ECS Connect – Soft Launched at DSEI '25 – Hard Launched at European Rotors - Nov '25, showcased at World Defense Show – Feb '26 and Security & Policing – Mar '26.

Will be showcased at upcoming events during the year.

Industry Events & Engagement

Our teams continue to represent SPX Communication Technologies at local and key global events:

February: World Defense Show – Riyadh, Saudi Arabia

Focusing on the evolving challenges and solutions in Counter-UAS technology - we showcased BLACKTALON C-UxS Ecosystem demonstrating how our C-UxS expertise could support defence and civilian domains in the Middle East. Also within Data Links, we showcased ECS Connect with a working demonstration model available to show visitors.

March: Security & Policing, Farnborough

We showcased Data Links, focusing on ECS Connect, also BlackTalon Ecosystem – we demonstrated how we're helping security, intelligence, and law enforcement agencies maintain clarity and control in increasingly complex operational environments.

March: AOC Maple Leaf, Canada – Electromagnetic Spectrum Operations (EMSO)

The AOC Maple Leaf Symposium offered an unmatched opportunity for professionals to share global research, exchange ideas, and collaborate on the future solutions of EMSO - Wayne Vella and Peter Savage attended and enjoyed a productive event showcasing our COMINT and C-UAS Solutions.
